

Design System & UI Specifications (design.md)

AI Cold Outreach Agent • Developer Aesthetic, Favicon & UI Components

1. Design Philosophy & Aesthetic

The platform adopts a high-precision, developer-grade aesthetic (inspired by Vercel and Linear) emphasizing dark/light mode contrast, clarity, and robust security indicators.

2. Color System & Typography

Dark Mode Tokens

BG: #09090b | **Card:** #18181b
Border: #27272a | **Text:** #f4f4f5

Light Mode Tokens

BG: #ffffff | **Card:** #f8f9fa
Border: #e2e8f0 | **Text:** #0f172a

3. Favicon & Brand Mark Specifications

Favicon Concept: Minimalist geometric vector featuring an automated letter pulse overlaid on a dark zinc background (#09090b) with blue accent (#3b82f6).

- favicon.ico (32x32px multi-resolution container)
- icon.svg (Scalable vector graphic for modern browsers)
- apple-touch-icon.png (180x180px rounded app badge)

4. Core UI Components & Layouts

- Upload Dashboard:** Drag-and-drop file dropzone with reactive column-mapping matrix.
- Campaign Preview:** Side-by-side prompt tuning and recipient draft inspection table.
- Live Dispatcher:** Animated progress indicators with granular status badges (`PENDING`, `SENT`, `FAILED`).

System Architecture & Error Handling (architecture.md)

AI Cold Outreach Agent • Backend Pipeline, Database Schema & Custom 404

1. High-Level Architecture & Data Pipeline

[Client UI] → [Next.js API Gateway] → [SheetJS & Vercel AI SDK] | [Gmail SMTP] ← [Background Worker & Rate Limiter] ← [PostgreSQL (Prisma)]

2. Prisma Database Schema

```
model User { id String @id @default(cuid()) email String @unique gmailUser String gmailAppPass String // Encrypted with AES-256-GCM campaigns Campaign[] } model Campaign { id String @id @default(cuid()) userId String user User @relation(fields: [userId], references: [id], onDelete: Cascade) title String intentType String // scholarship, b2b, web_dev promptTemplate String @db.Text recipients RecipientRow[] } model RecipientRow { id String @id @default(cuid()) campaignId String campaign Campaign @relation(fields: [campaignId], references: [id], onDelete: Cascade) data Json subject String? body String? @db.Text status String @default("PENDING") }
```

3. Custom 404 Error Page Specification (`not-found.tsx`)

Design & UX: Styled with developer terminal styling (`font-mono`), displaying a clean error code badge (`HTTP 404: Route Not Found`), helpful diagnostic breadcrumbs, and quick-action buttons (*Return to Dashboard* or *Contact Engineering Support*).

Legal & Compliance (Privacy Policy & Terms)

AI Cold Outreach Agent • Data Protection, Security Standards & Terms of Service

1. Privacy Policy Summary

Data Collection & Security

We collect user account information, uploaded spreadsheet datasets, and encrypted Gmail App Passwords solely for the execution of outreach campaigns. **Zero Data Sharing:** Uploaded spreadsheets and generated copy are never sold, rented, or utilized to train third-party public LLM models. All credentials are encrypted at rest using AES-256-GCM.

2. Terms of Service Summary

Acceptable Use & Compliance

Users agree to use the AI Cold Outreach Agent in strict compliance with anti-spam regulations (including CAN-SPAM and GDPR where applicable). Users are solely responsible for ensuring recipient consent. **Account Suspension:** The platform reserves the right to terminate accounts engaging in abusive spam practices or exceeding safe Gmail rate limits.

3. Compliance & Operational Guardrails

- **Rate Throttling:** Enforces mandatory delays between dispatches to protect sender reputation.
- **Data Retention:** Campaign records and recipient data can be purged permanently by the user at any time from dashboard settings.
